SUMMARY

As the children walk toward the tree house, Annie steps on an oyster shell. Jack reads in his book that oysters sometimes have pearls inside. They realize that this is the answer to Morgan's riddle. When they return to the tree house, they see that the riddle that had been written on the scroll has disappeared. In its place is the word oyster.

SUMMARY

Now that they've solved the riddle, the children's adventure is over. Annie touches the book picturing Frog Creek, and the tree house takes them home. She and her brother reminisce about everything they saw and learned. They are able to assure their mother that they didn't get their shoes wet.
